

# Innovative mooring solutions

## The world's first Grade R6 High Fatigue Life Kenter Link

The Crosby Feubo HFL NDur Link has been carefully designed and tested to offer the combination of the highest material grade and MBL strength defined for offshore mooring connectors with the high fatigue life of the industry-leading Crosby Feubo NDur Kenter.

The HFL NDur Link features the unique 'Fastlock' system that is proven to reduce project downtime and mitigate risk compared to conventional assembly/disassembly methods.
